FOR IMMEDIATE RELEASE

Esquire Innovations Increases Product Licenses by 12 Percent

Temecula, CA. December 16, 2008 – Demonstrating that law firms are continuing to invest in technology despite challenging industry and economic times, [Esquire Innovations, Inc.](#), a leading provider of Microsoft Office integration software for law firms, has increased their new product license count in the last six months, by 12 percent.

New clients include AMLAW 200 firms, King & Spalding, LLP, Foley Hoag, LLP, and Blank Rome, LLP, as well as Adler Pollock & Sheehan, P.C., Modrall Sperling, Gunderson Dettmer, Fraser Trebilcock Davis & Dunlap, P.C., Los Angeles County Counsel and the legal department at Walgreen Co.

The number of firms that use Esquire's products is now more than 550, a record high for the nine-year old company, which continues to add clients.

"Law firms continue to invest in excellent solutions and extraordinary support in the legal software arena," said Randall Farrar, president and founder of Esquire Innovations. "We are thrilled that more clients continue to seek out Esquire and our products."

Esquire's products include [iCreate 7](#), its popular document production and formatting software; [iRedline 7](#), enhanced Word document comparison; [iScrub](#), a metadata management application for Microsoft Office documents; and [iDocID](#), software for adding a document ID to a Word or Excel document. The four products are also available as the combined package [iOffice System 7](#).

All Esquire products utilize [Enhanced Native Architecture](#)™ (ENA), a term coined by Esquire. ENA is the methodology for retaining the look and feel of Microsoft Word to promote streamlined workflow and reduce end user training requirements. In addition, by retaining Word's native capabilities, an electronic document can be used for collaboration purposes more effectively.

About Esquire

Esquire Innovations, Inc., a leading provider of Microsoft Office integrated practice management software services and applications for the legal market, has more than 550 law firm and in-house counsel clients worldwide utilizing its applications. Founded in 1999 by Randall Farrar, a pioneer in the development and marketing of software applications geared towards the legal market, Esquire Innovations creates, supports and sells document creation, formatting, re-purposing, comparing, and metadata management software applications to the legal industry. Based in Temecula, California, Esquire is staffed with a highly qualified team of technology professionals.
