

Esquire Innovations Enhances Corporate Website with added New Features

Clients can now schedule and purchase training courses online and receive current news and product updates

Temecula, CA – April 13th, 2006 - Esquire Innovations, Inc. (Esquire), a leading provider of Microsoft Office integration software services and applications for the legal market, has updated and enhanced its website www.esqinc.com. Beyond simplifying navigation focused on Esquire products, service, events and current news, the website now includes calendaring technology enabling website visitors to view upcoming web-based training sessions as well as sign up for and purchase training online. Also, based on popular demand, the site features a Judge Carter Reynolds section on the homepage, where visitors can read Esquire's Vice President of Client Experiences latest training tips and tricks and published articles.

Esquire's new website is segmented into nine main navigation categories including Products, Support, Downloads, Partners, Newsflash and Calendar. While the Newsflash section highlights Esquire-centric articles and news stories, the new calendar functionality gives users seamless access to product training webettes and schedules. In addition to providing an overview of a given training topic, users will also see associated participation costs, the capacity of the class, and be able to link to a separate landing page with more details on the session. The "Buy now" button enables online shopping with a push of a button.

Online training offerings are constantly being updated and expanded, but here is an overview of web sessions scheduled for April and May:

Training: iCreate Administrator - Pleading Webette 04/28/2006

Via an interactive online seminar, a live instructor provides training on configuring the iCreate pleading iCE file including strategies for merge fields, styles and layout. This also covers new features available in EP6.

Training: iHyperStyles EP4/EP6 Webette 05/10/2006

Via an interactive online seminar, a live instructor provides an overview of iHyperstyles for iCreate EP4/EP6.

Training: iScrub XML Webette 05/12/2006

Via an interactive online webette, Judye Carter Reynolds will provide training on iScrub EP5/EP6 administration, configuration and implementation. Includes a discussion of XML options and settings, and setting defaults and preferences.

Training: Starting Point VBA 05/25/2006 – 06/01/2006

This four part course online Beginner VBA class is the perfect starting point for those of you who are new to VBA or have been suffering through the pain by learning on your own. This webette will take you from ground zero to building your own templates

“Our new website not only addresses our clients and prospects need for current product news and useful training information, but is an online extension of the true community and partnership we share with our clients,” stated Randy Farrar, President & CEO, Esquire Innovations, Inc.
